

Contact-Free Deliveries

Limiting contact when delivering orders will help keep everyone healthy, so please leave deliveries at the door, rather than handing it over to them.

Knock on the door step back at least 2 metres and wait nearby for your customer to collect it.

Please ensure that vehicles are clean and you wash your hands as often as possible.

Please ensure that you have gloves (these should be disposed of after each delivery) and hand sanitizer is used after each delivery.

If at any point you start to display any of the following symptoms then please let the person in charge know, go home and stay at home;

- a high temperature – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- a new, continuous cough – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- To protect others, do not go to places like a GP surgery, pharmacy or hospital. Stay at home.
