

## **Central Lancashire Strategic Housing Market**

### **Joint Memorandum of Understanding and Statement of Co-operation relating to the Provision of Housing Land**

**SEPTEMBER 2017**

#### **Parties to the memorandum**

Chorley Council

South Ribble Borough Council

Preston City Council

#### **1. Central Lancashire**

1.1 Central Lancashire is defined as the area covered by the following three local planning authorities ('the Councils'):

- Chorley Borough Council
- Preston City Council
- South Ribble Borough Council.

1.2 The Councils, together with Lancashire County Council (which provides strategic planning functions in relation to highways, minerals and waste), have a *very* considerable history of joint working which reflects the compact nature of this part of Lancashire, focused on the urban core. Joint working is formally constituted in a Joint Advisory Committee of the Councils that was established in 2008.

1.3 Overall the Councils cover an area of some 458 sq. km (177 sq. miles) with a combined population of 366,270 (2016 mye). Importantly in this context, the area functions as one integrated local economy and travel to work area and is a single Housing Market Area. Containment levels approach 80% for travel to work and exceed 80% for housing *moves* when long distance *moves* are excluded.

1.4 Journey times by rail from Preston to Leyland are 6 minutes and to Chorley 14 minutes. Rail journey times between Chorley and Leyland are 8 minutes. Both Chorley and Leyland are within 20 minutes journey time by road from Preston and 15 minutes between the two.

#### **2. The Current Development Plan**

2.1 The history and depth of joint working by the Councils is reflected in the current development plan consisting of:

- The Joint Central Lancashire Core Strategy adopted by the Councils in July 2012. The Joint Core Strategy complies with the National Planning Policy Framework ('NPPF' or 'the Framework').

- Site Allocations Plans for each Council area all adopted in July 2015. These plans set out policies to achieve development that reflects the overall strategic framework set out in the Core Strategy. All plans are NPPF-compliant.
- Individual Area Action Plans and Neighbourhood Plans within each authority as listed in Appendix 1.

2.2 Joint Core Strategy Policies 1 and 4 are of particular relevance to this Memorandum. Policy 1 sets out the overall spatial pattern of development being concerned with locating growth across Central Lancashire. Policy 4 contains the housing requirements for each local authority.

Chorley: 417 dwellings per annum

Preston: 507 dwellings per annum

South Ribble: 417 dwellings per annum.

TOTAL: 1,341

### **3. The purpose of the Memorandum and Statement**

3.1 The purpose of this document is to confirm and demonstrate an approach agreed by the Councils concerning the distribution of housing in the Housing Market Area referred to at paragraph 1.3 above. This agreement is informed by the Strategic Housing Market Assessment, August 2017. The Statement sets out the agreed approach to the distribution of housing prior to adoption of a new plan.

3.2 In reaching this agreement the Councils have had regard to the High Court judgment in *Sf Modwen Developments Ltd v SSCLG & East Riding of Yorkshire Council* [2016] EWHC 968 (Admin) and to the Court of Appeal judgment in *Oadby & Wigston Borough Council v SSCLG & Bloor Homes* [2016] EWCA Civ 1040.

3.3 Details of each Council's agreement to this document are set out in Appendix 2.

### **4. Duty to Co-operate**

4.1 The statutory duty to co-operate is set out in s.110 of the Localism Act 2011, which amends the Planning and Compulsory Purchase Act 2004.

4.2 Paragraph 178 of the NPPF indicates that public bodies have a duty to cooperate on planning issues that cross administrative boundaries particularly those relating to the strategic priorities, including housing, set out in the Framework. The Government expects joint working on areas of common interest to be diligently undertaken for the mutual benefit of neighbouring authorities.

4.3 Paragraph 179 states that strategic priorities across local boundaries should be properly co-ordinated and clearly reflected in individual Local Plans and paragraph 180

that local planning authorities should take account of different geographic areas, including travel to work areas.

- 4.4 Paragraph 181 sets out the expectation that local planning authorities will demonstrate evidence of having effectively co-operated to plan for issues with cross-boundary impacts in plan making. Such co-operation should be continuous.
- 4.5 The Councils have co-operated in the preparation of the current development plan as well as in the preparation of a range of supplementary planning documents and non-statutory planning processes. They commissioned evidence jointly for preparation of the existing development plan and are commissioning such evidence for the preparation of the replacement plan. In particular a new Strategic Housing Market Assessment ('SHMA') has been published in August 2017. This sets out Objectively Assessed Housing Needs for the Housing Market Area as a whole and for each district within it.
- 4.6 The Councils agree that, for the reasons set out below, it is appropriate to retain the current Central Lancashire Core Strategy housing requirement figures as set out in CS Policy 4 to ensure that the full objectively assessed housing need across the housing market as a whole is met.

## **5. Meeting the Objectively Assessed Need**

- 5.1 Paragraph 47 of the NPPF states that local planning authorities should use their evidence base to ensure that their Local Plan meets the full, objectively assessed needs for market and affordable housing in the housing market area, as far as is consistent with the policies set out in this Framework, including identifying key sites which are critical to the delivery of the housing strategy over the plan period.
- 5.2 Paragraph 159 states that local planning authorities should have a clear understanding of housing needs in their area including preparing a SHMA to assess their full housing needs, working with neighbouring authorities where housing market areas cross administrative boundaries.
- 5.3 Ouseley J explained as follows in his judgment in the *St Modwen* case:

*"74.....1 agree with the Inspector that the NPPF does not require housing needs to be assessed always and only by reference to the area of the development control authority.*

*75. The first question is whether Hunston required the Inspector to reach a different decision. It did not. Hunston holds that, for whatever is the housing market area being considered, it is the full, objectively assessed, needs of that area which are to be considered. Hunston does not decide or even comment on the prior question of what housing market area should be examined, nor does it address the issue of how the needs should be apportioned between the various parts of the housing market area where it covers two local planning authorities' areas. Solihu/1 makes the point that the phrase "as far as is consistent with the policy set out in this Framework" cannot be construed so as*

*to bring in to the assessment of the full objectively assessed needs via the back door, what Hunston had excluded at the front door, namely policy constraints on which the local plan might impose on actually meeting those needs. But it does not deal with the area to be taken in the assessment of housing needs."*

- 5.4 And Lindblom LJ explained further as follows in *Oadby & Wigston*, referring to the *St Modwen* case:

*"53. In that case the inspector and Secretary of State were able to accept, as the appropriate basis for testing the sufficiency of the housing land supply, the agreed apportionment of housing needs between the two administrative areas in the housing market area – given the authorities' long-standing and continuing co-operation in plan preparation. Ouseley J saw nothing unlawful in that conclusion."*

- 5.5 It follows that the Housing Market Area is an appropriate basis for assessing the full Objectively Assessed Need for housing provided that there is agreement between the constituent local planning authorities of the HMA concerning how that need is to be addressed between them.

- 5.6 The Councils have jointly commissioned GL Hearn to produce a SHMA. A first draft was produced in September 2016. A final SHMA was published in August 2017 to take account of the Court of Appeal judgment in *Oadby and Wigston* and updates the demographic data to take account of the 2016 mid-year population estimates.

- 5.7 The final SHMA (**August 2017**) identifies the full Objectively Assessed Need for the Housing Market Area as being 1,184 dwellings per annum. The distribution between the three authorities is:

- Chorley: 519 dwellings per annum
- Preston: 225 dwellings per annum
- South Ribble: 440 dwellings per annum
- Total: 1,184

The total is lower than the current development plan requirement of 1,341 dwellings per annum as is the annual requirement for Preston (compare paragraph 2.2 above). Chorley's and South Ribble's need figures are higher than the plan requirement. These figures take into account economic growth. There are uplifts in Chorley and South Ribble above the demographic growth figures, which are 419 dwellings per annum for Chorley and 351 dwellings per annum for South Ribble. However, in Preston the demographic growth figure exceeds the economic growth figure and is 402 dwellings per annum.

In summary the demographic and economic growth figures for each authority are:

Authority	Demographic growth (dpa)	Economic growth (dpa)
Chorley	419	519
Preston	402	225
South Ribble	351	440
Central Lancashire	1,172	1,184

5.8 If each local planning authority were required to meet its own Objectively Assessed Need including, for Chorley and South Ribble, that deriving from economic growth in the absence of an agreement to apportion the need between them, the Objectively Assessed Need for each would be:

- Chorley: 519 dwellings per annum
- Preston: 402 dwellings per annum
- South Ribble: 440 dwellings per annum
- Total: 1,361

5.9 The total of the requirement figures for each individual authority exceeds the current local plan requirement by only 20 dwellings per annum (1,361 dwellings per annum compared with 1,341). Nevertheless the total of individual OAN figures for Chorley and South Ribble based on economic growth and Preston based on demographic growth exceeds the Objectively Assessed Need figure for the HMA as a whole by a margin of 15%. A distribution of housing based on the current Core Strategy requirements ensures that there is a pattern of development that directs housing growth towards the priority areas, particularly the strategic sites and locations identified in Cottam and North West Preston, where land is already allocated to deliver significant new housing in accordance with the Preston, South Ribble and Lancashire City Deal agreement.

5.10 The Councils agree for the following reasons both (a) that is appropriate for the proper planning of Central Lancashire as a whole that an apportionment of the full Objectively Assessed Need is made across the Housing Market Area and (b) that the current Joint Core Strategy requirement figures - which exceed the Objectively Assessed Need on a Housing Market Area footprint - should continue to be applied prior to or pending adoption of a replacement local plan.

a) Apportionment on the basis of the current plan requirement figures reflects the spatial pattern of development in Policy 1 of the Joint Central Lancashire Core Strategy, which has been examined and found to be sound in the context of the NPPF.

b) Site Allocations have been determined to meet the current spatial pattern of development. Meeting the housing requirement figures in the current Joint Core Strategy ensures that the Objectively Assessed Need is met in full across the Housing Market Area.

c) Apportionment on this basis reflects and facilitates the historic and continuing high levels of joint working between the authorities.

d) The high levels of containment for both travel to work and housing market areas are sufficient to ensure that apportionment on the basis of the Joint Core Strategy requirement can be achieved.

e) Apportionment on this basis will help to address net out-migration from Preston to other parts of the Housing Market Area.

**6. Agreement**

6.1 Chorley Borough Council, Preston City Council and South Ribble Borough Council agree:

a) To continue until the adoption of a replacement local plan to apply the housing requirements set out in the Joint Central Lancashire Core Strategy Policy 4, i.e.

Chorley: 417 dwellings per annum

Preston: 507 dwellings per annum

South Ribble: 417 dwellings per annum.

b) That there is no requirement for each local planning authority to meet its identified individual Objectively Assessed Need for housing where higher in view of this agreement and the longstanding and continuing joint working between the Councils.

c) To continue the existing monitoring arrangements for the Central Lancashire Core Strategy and individual local plans to confirm that the MOU is delivering as intended.

**7. Review**

7.1 The document will be reviewed no less than every three years and will be reviewed when new evidence that renders this MOU out of date emerges.

Signed on behalf of Chorley Council

Councillor Alistair Bradley

Date 03/10/17

Signed on behalf of South Ribble Borough Council

Chief Executive, Heather McManus

Date 28/9/17

Signed on behalf of Preston City Council

Date 03/10/17

Councillor Peter Moss
